Why is your hair so dry and what to do ?

Dull texture and breakage are signs of your hair needs help. If you brush too hard, get your hair colored or use heat-styling tools, there's a god chance your locks won't be as healthy as they could be. What to do ? Be extra gentle with hair when it's wet, as that's when it's most fragile. Shampoo and condition carefully, pat it dry (rather than rub it), and use a comb on damp hair or a paddle brush. Also, limit heat-styling to a few times a week instead of everyday.

My Suggestions Of The Week:

Macadamia Natural Oil Treatment

Paddle Brush

One of the fun parts about working in television and film is that you get to meet some really cool people and one of the cool people that I had the pleasure of working with for nearly 2 years was one of our very own hometown girls by the name of Solange Knowles, Beyonce's little sister. We had a blast ! Here's some of the beautiful hairstyles I had the pleasure of doing on her.{jcomments on}
