I was looking for an app that would play adobe flash files on my iPad. I found one , that is worth trying.

Appsverse Photon Browser is a browser that is designed for the iPad, iPhone and iPod Touch with the experience optimized and enhanced. It is also a powerful browser that supports Flash player for iPad and the browsing of Flash websites by streaming these sites from servers in the cloud. Appsverse Photon Browser is a fully featured browser that combines the fast experience of browsing on the iPad, iPhone and iPod Touch with a Flash player.

Appsverse powerful cloud virtualization technology allows users to seamlessly switch from native browsing mode to a cloud streaming session mode to browse Flash websites using Appsverse Photon Browser. As the web page is streamed from the cloud, user experience may differ based on a number of factors including network connectivity, and bandwidth.

Photon can be downloaded from the Apple App Store for \$4.99.
