I immerse myself in every album the same as I do when I watch a movie. Each record is like a dream. The vibrant sounds of Yeezus come through singing, screaming, and spitting at me like an echo in a hollow chamber.

Every song is a different scene and every featured artist is a skilled actor. It's selfish to try and rate any album according to what you expect the artist to produce, specifically because there are no rules to art.

Yeezus has no lush choirs, no elaborate orchestras, and no bouncy pop beats as we might expect from a Kanye album. It's hyper-sexual, stunningly visual, and very definite in the point it's trying to make. You cannot put Yeezus in a box.

Kanye West and his production team did everything but take the obvious route with this album, despite that none of the songs feel like a gimmick, and as a whole every song fits together.
